

OUR TRUST VALUES

Excellence - Equity - Evolution

Excellence

Inspiring the belief that everyone is capable of exemplary levels of performance by modelling success and removing ceilings to achievement.

How?

We show excellence by linking this to our own school ethos: Believe, Achieve, Aspire. This gives us the inspiration and mindset that anything is possible and our successes should know no limit.

How?

Equity is evident throughout our school and is noticeable in a variety of ways from how staff and children talk to and treat each other, from learning time in the classroom and other environments. You will notice how we encourage children contribute to discussion, how they listen to the opinions of others and respect differences and then how they carry this out.

Equity

Creating a culture where respect for others and human rights are central to how people relate to one another by treating people with democratic values and impartiality.

Evolution

Understanding that change is inevitable so making sure that all are open to new ideas and multiple perspectives as problems arise and solutions are sought.

How?

We recognise that everyone in our school, staff and children, are all learners and therefore are constantly striving to make progress. Our school community recognise that the world we live in today may not be the world we live in tomorrow and therefore, we must embrace change in order to best prepare our children for the world they will live in.
